RESOLUTION NO. 59 Series of 2022

RESOLUTION APPROVING THE ENGINEERING AND TECHNICAL DIVISION'S BUDGET REALIGNMENTS AND SUPPLEMENTAL BUDGETS OF THE ITEMS IN THE PLARIDEL WATER DISTRICT'S 2022 ANNUAL PROCUREMENT PLAN AND PROJECT PROCUREMENT MANAGEMENT PLAN

WHEREAS, during the budget evaluation of the Plaridel Water District's (PLAWD) 2022 Annual Procurement Plan (APP) concerning the Engineering and Technical Division, there were particular items and projects which need to be allocated;

WHEREAS, there are also items in the aforesaid budget that were previously allocated wherein their respective prices significantly soared due to the abrupt increase in prices of petroleum products brought about by the COVID-19 pandemic and the ongoing conflict in Europe;

WHEREAS, the foregoing items were identified as essential in the efficient operation and delivery of PLAWD services, hence, it is important that these items be included in the PLAWD's 2022 APP based on the recommendation made by the Engineering and Technical Division during this year's Mid-Year Budget Review;

WHEREAS, the aforesaid division provided the following justifications regarding the matter:

1. The budget for the **FUEL** should be adjusted due to the higher expected inflation rate because of the elevated prices of global commodities. The **current approved budget for the FUEL is Php200,000.00 and should be increased to Php400,000.00**;
2. To allocate spare equipment and other additional items which were not included in the PLAWD's 2022 APP;
3. To compensate for the additional increase in prices of items due to the rise in the current market prices and other various factors;
4. To improve the type, specification, and design of items that shall contribute to the pump station's better performance, use, and uninterrupted delivery of services;
5. To replenish the type of items and fittings which were easily diminished due to this year's higher demand in service connection and water line repair, maintenance, and construction;
6. To undertake immediate reconditioning of pump station which recently manifested low production output and affected water supply of several barangays; and
7. To accommodate additional pipe laying projects that will remove and prevent the proliferation of unattractive multiple individual "spaghetti" water lines that block the free flow of drainage water in drainage canals;

[Handwritten signatures and initials on the right margin]

NOW, THEREFORE, BE IT RESOLVED, as it is **HEREBY RESOLVED**, do hereby approve the Engineering and Technical Division's budget realignments and supplemental budgets of all items and accounts enumerated in the herein attached Summary concerning the Plaridel Water District's 2022 Annual Procurement Plan and Project Procurement Management Plan.

APPROVED this 12th day of August 2022.

SUBJECT

**Request for Realignment of Budget of the Engineering and
Technical Division in the PLAWD 2022 Annual Procurement
Plan (APP) and Project Procurement Management Plan (PMPP)**

DATE

June 13, 2022

BACKGROUND

In the evaluation of budget of the Engineering and Technical Division in the PLAWD 2022 APP, there were particular items and projects which needs to be allocated. Likewise, there are items which were allocated but due to the abrupt high increase of prices of oil and other petroleum as a result of the pandemic and current ongoing conflict in Europe, prices of these items shoot-up remarkably. These items were identified as essential for the efficient operation and delivery of PLAWD services, hence, it is also essential that these items be included in the new PLAWD 2022 APP based from the recommendation of the Engineering and Technical Division staffs during the recent mid-year review. These items and activities including their purpose are presented in the attached table.

JUSTIFICATIONS

1. The budget for the FUEL will have to be adjusted due to higher expected inflation rate because of the elevated prices of global commodities. The current approved budget for the FUEL is at ₱200,000.00 and will be increased to ₱400,000.00.
2. To allocate spare equipment and other additional items which were not included in the 2022 PLAWD APP;
3. To compensate the additional increase in prices of items due to rise in the current market prices and other various factors;
4. To improve the type, specification and design of items which shall contribute to the pump station's better performance, use and uninterrupted delivery of services;
5. To replenish the type of items and fittings which were easily diminished due to this year's higher demand in service connection and water line repair, maintenance and construction;
6. To undertake immediate reconditioning of pump station which recently manifested low production output and affects water supply of several barangays; and

7. To accommodate additional pipe-laying projects that will remove and prevent the proliferation of unattractive multiple individual 'spaghetti' water lines which blocks free-flow of drainage water in drainage canals.

RECOMMENDATIONS

It is recommended by the Engineering and Technical Division to approve the realignment of budget off all accounts based on attached summary and the supplemental of budget for fuel in the PLAWD 2022 APP.

REQUESTED BY:  ENGR. REYNANTE D. FRANCISCO Manager, Engineering and Technical Division	RECOMMENDING APPROVAL:  ENGR. MARIO G. MACATANGAY Interim General Manager	BOARDS' ACTION	Approved
		RESOLUTION NO.	59, s. 2022
		DATE CONSIDERED	12 August 2022
		DATE RELEASED	12 August 2022

9	Automatic transfer switch (ATS)	0	0.00	1 unit	175,300.00	175,300.00	- To replace the previously proposed Manual Transfer Switch with a more advanced control switch that shall operate automatically with less manpower intervention.
10	Variable Frequency Driver (VFD)	1 unit	300,000.00	0	0.00	(300,000.00)	- To cancel the budget and add to other items with a limited budget
11	Deep Well Sound Water Level Meter	1 unit	15,000.00	0	0.00	(15,000.00)	- To cancel the budget and add to other items with a limited budget
12	Chlorine colorimeter test equipment	2 units	63,000.00	2 units	90,000.00	27,000.00	- To supplement budget due to increase in market price.
13	Air conditioning units	3 units	60,000.00	5 units	109,000.00	49,000.00	- Essential for the cooling of the pump housing facility and preventing damage to electrical switches, panels, and controls of PLAWD pump stations.
14	Ammonium Hydroxide Solution	0	0.00	1 lot	15,000.00	15,000.00	- To be used by pump operators for chlorine leak detection.
15	Butterfly Valve	4 pcs	250,000.00	8 units	235,000.00	(15,000.00)	- To reduce the budget and add to other items with a limited budget - To maximize the budget by adding an additional quantity
16	Verification and Calibration of Colorimeter	1 lot	40,000.00	2 sets	40,000.00	0	- To purchase two (2) sets of calibration standards with a different expiration date
