PLAWD PIPE LAYING PROJECTS FOR 2023

Engr. Ronaldo C. Picar

Ang Plaridel Water District (PLAWD) ay may tatlong (3) Local Pipe Laying Projects na nakalaan sa taong ito ng 2023. Ang mga proyektong ito ay ang mga sumusunod:

1. Pulong Bato Subdivision Pipe Laying Project sa Barangay San Jose, Plaridel na may haba na 886 metro at sukat na 50mm (2") dia. PVC Pipe;
2. Balanti Lagundi Pipe Laying Project sa Barangay Lagundi, Plaridel na may haba na 672 metro at sukat na 150mm (6") dia. PVC Pipe; at
3. Rueda Dike Pipe Laying Project sa Barangay Rueda, Plaridel na may haba na 504 metro at sukat na 75mm (3") dia. PVC Pipe.

Bukod pa sa 3 proyektong local na ito, ang PLAWD ay mayroon ding malaking pipe laying project na ginagawa sa kasalukuyan sa mga "main at internal roads" sa buong Plaridel, Bulacan at ito ay sa ilalim ng Asian Development Bank (ADB) - Local Water Utilities Administration (LWUA) - Water District Development Sector Project (WDDSP).

Ang layunin ng mga proyektong ito ay upang mabigyan ng malinis, ligtas at sapat na inumin tubig ang mga nasasakupang mamayan sa mga naturang lugar o barangay. Alinsunod rin sa pamantayan ng PLAWD Management ay ang pagtatangal ng mga linya ng tubo na pinagapang ng mga konsesyonaryo na hindi naaayon sa panuntunan ng PLAWD.

Ang Pulong Bato Subdivision Pipe Laying Project ay kasalukuyang ginagawa ngayon sa patnubay at superbisyon ng Construction and Maintenance Unit ng Engineering Division. Ang proyektong ito ay nasa 50% accomplished na at inaasahan na matatapos hanggang sa katapusan ng buwan ng Marso 2023. Isusunod dito ang Balanti Lagundi Pipe Laying Project na nakatakdang gawin sa buwan ng Abril hanggang Hunyo at ang Rueda Dike Pipe Laying Project ay nakatakda naman sa buwan ng Agosto hanggang Setyembre 2023.

ENGR. RONALDO C. PICAR.
