**Accounting is the system of recording and summarizing financial transactions and analyzing, verifying, and reporting the results. The main objectives of accounting are to maintain a proper record of all financial transactions and to report a company's financial position, financial performance, and cash flows.**

**The Plaridel Water District's Finance Division, headed by Ms. Cecilia L. Pasagui, is composed of three (3) units in which the Accounting Section is part thereof. The Accounting Section has six (6) staff that are responsible for recording the collections, disbursements, and other financial transactions of the district.**

**The Section ensures that the district's financial resources are properly disbursed based on the approved projects and programs and accurately accounted in accordance with the Philippine Financial Reporting Standards (PFRSs) and Government Accounting Manual (GAM). The Section is also responsible in the preparation of Financial Reports based on the accounting records and interpret its results, that are useful to the top management in making economic decisions with the aim of providing quality services to the concessionaires.**

# Fire Prevention Tips

Iwasang i-overload ang mga saksakan.

1

Tanggalin sa saksakan ang mga appliances na hindi ginagamit.

2

Pahingahin ang mga appliances

3

Bantayan ang mga niluluto.

4

Isara ang kalan pagkatapos magluto.

5

Kung gagamit ng kandila, patayin ito bago matulog.

6

Mainam na magkaroon ng fire extinguisher at alamin ang wastong paggamit nito.
