| | |
|---|---|
| FROM THE OFFICE OF THE ADMINISTRATIVE DIVISION MANAGER | |
| FOR CONSIDERATION OF THE INTERIM GENERAL MANAGER | |
| DATE | SUBJECT |
| May 12, 2026 | REQUEST FOR EMERGENCY REPAIR OF AIR-CONDITIONING SYSTEM OF ISUZU D-MAX (PLATE NO. SKL 927) |

BACKGROUND

On May 8, 2026, while the vehicle was being used by Mr. Arnold Remorin for official business, it was observed that the air-conditioning system was no longer producing cool air. The vehicle was immediately brought to a repair shop for inspection and assessment.

The issue was reported to the General Services Section for evaluation and appropriate action. Upon inspection conducted by Pull-Air Car Aircon Services, the following repairs were recommended: pull-down of the evaporator, dashboard, condenser, and compressor; general cleaning; full charging of freon; and leak testing of the entire system.

JUSTIFICATION

The emergency repair of the vehicle's air-conditioning system is necessary to ensure the safe, efficient, and uninterrupted use of the service vehicle for official operations. Continued use of the vehicle without proper air-conditioning may affect the condition and comfort of passengers and may further damage the air-conditioning components, resulting in higher repair costs. Considering that the vehicle is regularly utilized for official operations, the recommended emergency repair is necessary to restore the vehicle to its normal operating condition.

RECOMMENDATION

The Administrative Division respectfully recommends the approval of the Interim General Manager for the emergency repair of the Isuzu D-MAX (Plate No. SKL 927) in the amount of Seven Thousand Fifty Pesos (₱7,050.00). The cost shall be charged against Repair and Maintenance – Motor Vehicles (GL# 50213060/841).
